

The Society of Hispanic Professional Engineers, Inc.

The Society of Hispanic Professional Engineers, Inc.  
Dallas Convention Center, Dallas, TX

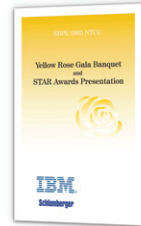

Audience size: 2,500

### 2,500 Attendees...On a Budget

The SHPE Conference is the major event for the Society of Hispanic Professional Engineers, Inc. and the largest technical and career conference for Hispanics in the country.

Each year, the SHPE Conference attracts engineering professionals, students and corporate representatives. The conference is an opportunity for engineering companies and corporations to recruit top talent from SHPE membership. It also provides educational, technical and career opportunities for professional and student engineers.

Student Awards are presented yearly at the Gala Banquet at the National Technical and Career Conference (NTCC).

A Corporate Sponsorship Recognition luncheon is held each year as part of the conference to recognize significant corporate contribution to the advancement of Hispanic Professional Engineers.

We stepped up to the plate and made it happen on a very tight budget. Two sets of programs, awards choreography, recognition graphics, banners and everything essential to a great gala experience.

MDP and STS once again provided a seamless conference with opportunity to network for all.
